MESSAGE

“Crime in India-2019” is the national report on crime statistics in India. The report comprehensively covers a wide range of crime statistics collected from all States/UTs. I am sure the report will be beneficial to various stakeholders including policy makers, researchers, academicians and different police organizations in the country.

2. I take this opportunity to commend all the States and Union Territories for their sincere efforts in furnishing the data required for this publication even as they managed the challenging situation arising due to the COVID-19 pandemic. I also appreciate the efforts of Director, NCRB and his team for collecting, collating and publishing of the report in a timely manner.

FOREWORD

It is my proud privilege to present the 67th edition of the "Crime in India", the most comprehensive set of statistics on crime for the year 2019. This is an annual publication of National Crime Records Bureau (NCRB), being published since 1953.

Change is an inevitable consequence of societal progression and neither people nor institutions are immune from its influence. Increased population, technological advancements and heightened competition for economic resources have brought about change in crime and its pattern as well and this has thrown new challenges to the law enforcement agencies. Consequently, crime statistics becomes an important resource base to effectively prepare for and manage the challenges for positive outcomes.

The general objective of the report is to help develop insights into the extent of crime for use in law enforcement, operation, research and management. The data provided by the report over the years has become one of the country's most sought after statistics.

Over the years, the Bureau has identified the needs of the key stakeholders within the Criminal Justice System and the wider research community and has improved the publications to provide appropriate information on crime statistics. The report has been prepared to provide data to various criminologists, sociologists, legislators, municipal planners, the media, and other students of criminal justice for varied research and planning purposes.

As we are beholden, the assistance and support of the heads of all State & UT Police Departments, Directors of SCRBx/CIDs and their staff in furnishing the data even in the difficult situation in the country due to COVID-19 is greatly acknowledged.

I also take this opportunity to appreciate the work done by all the officials and staff of the Statistical Branch in collecting and compiling the data and bringing out the publication in the stipulated time.

Like the previous publications, Crime in India-2019 is available in digital format and is freely downloadable by accessing our website <http://ncrb.gov.in>.

Suggestion or feedback for further improvement in content and quality of the report would be greatly appreciated.

Disclaimer

1. The information published in this report has been obtained from States/UTs Police and Central Law Enforcement Agencies/CAPFs/CPOs. NCRB has only compiled and collated the data and presented it in the form of this report. As data is being furnished by States/UTs/Central Law Enforcement Agencies / CAPFs / CPOs, NCRB is not responsible for authenticity of the information. However, any discrepancy observed in this report may be brought to the notice of the Bureau.

Limitations

1. Since the publication caters to the 'Principal Offence Rule' for classification of crime, the actual count of each crime head may be under reported. This is because among many offences registered in a single FIR case, only most heinous crime (maximum punishment) will be considered as counting unit. Hence, there is likelihood of some IPC/SLL cases getting under reported as they are hidden under major IPC crimes. For example, Murder with Rape is accounted as Murder; Dowry Prohibition Act when applied along with Dowry Death (304B of IPC) will be counted as Dowry Death only.
2. The Socio-economic causative factors or reasons of crimes are not being captured by the Bureau. Only police recorded crime cases are being captured for this publication.
3. Crime Rates of States/UTs have been arrived at using the Mid-Year Projected Population of respective States/UTs of 2019 based on 2011 census (Report of the Technical Group on Population Projections, Nov. 2019, National Commission on Population, Ministry of Health & Family Welfare). However, this is not available in respect of metropolitan cities. Crime Rates for Metropolitan cities have been calculated using Actual Population Census 2011. Hence, Crime Rates of States and Metropolitan cities are not comparable.
4. 'Crime Rate' is not calculated for City-wise Crimes under 'Children, SCs/STs & Senior Citizens' due to non-availability of Population figures of these groups in the cities.
5. Clarifications which were pending for the year 2018 from States West Bengal, Assam, Arunachal Pradesh, Meghalaya & Sikkim and Kolkata City have been resolved. The figures of 2018, which were provisional in CII-2018, thus represent final statistics of these states in this publication. This has however, resulted in only minor changes in a few crime-heads.
6. Due to non-receipt of data from State of West Bengal and Kolkata City in time for the year 2019, data furnished for the year 2018 has been used to arrive at national and city-wise figures.

Methodology for Data Collection & Publication

A) Data Collection and Compilation Process

Crime in India – 2019 deals with the crime data which refers to the calendar year (1st January to 31st December of 2019). The data collection process including clarifications from the States/UTs/Central Agencies started in Jan, 2019 and continued till June, 2020.

a) State/UT Police:

- i. The annual State/UT data for “Crime in India” is furnished by the 36 States/UTs in the NCRB prescribed proforma through a software application developed by NCRB.
- ii. Similar data is also furnished for 53 Metropolitan Cities by respective SCRBs /CIDs (i.e. Metropolitan Cities which have the population of 1 million (10 lakh) or more as per Population Census, 2011). However, data pertaining to only 19 Metropolitan Cities which have crossed the population of 2 million (20 lakhs) is being published in hard copy. The data for remaining 34 Metropolitan Cities would, however, be available on NCRB Website.
- iii. Delhi UT comprises of both Delhi City and rural part of Delhi.
- iv. The data is entered by State/UT Police at Police Station/District level.
- v. A training is conducted every year for the functional officials (Police constables, HCs, ASIs, SIs, etc. from all States/UTs) to explain the various issues concerning entry of data in input tables.
- vi. The consolidation of District/State level data is done by State Police Agencies (SCRB/ CID).
- vii. First level data validation is done at the Police Station/District level during the data capturing process itself and Second level data validation is done at the state level at the time of consolidation of District data through the NCRB application.
- viii. Data is scrutinized at NCRB for discrepancy / inconsistency. The same, if any, are communicated to the respective State/UT for verification and rectification.
- ix. Amendments/Rectifications, if any, in the data are incorporated in the database by NCRB.

b) Central Law Enforcement Agencies/CAPFs/CPOs:

Details of seizures and prosecutions under Prevention of Corruption Act, Direct Taxes Enactments, Customs Act, NDPS Act, etc. as being furnished by the respective Central Agencies (viz. CBI, Central Board of Direct Taxes, Directorate of Revenues Intelligence, Narcotics Control Bureau) & CAPFs/CPOs have been published under Chapter 20C & Chapter 20D respectively.

c) Compilation at NCRB:

- i. After receiving final data from all States/UTs including Metropolitan Cities, All-India data is generated by NCRB.
- ii. The National Level tables for the “Crime in India” publication are generated through the application and cross checked for discrepancy, if any.
- iii. Calculations used in columns, if any, are mentioned at the bottom of the respective table.

B) Methodology Adopted for the Present Publication (2019)

a) Principal Offence Rule:

As per the International Standard, the Bureau follows ‘Principal Offence Rule’ for counting of crime. In other words Principal Offence Rule refers to the system of recording each criminal incident as one crime. If many offences are registered in a single FIR case, only the most heinous crime i.e. the one that attracts maximum punishment will be considered as counting unit.

b) Population

Sl. No.	Segment	Source	Year of Population
1.	IPC & SLL	Report of the Technical Group on Population Projections, Nov. 2019, National Commission on Population, MoHFW	Estimated population of States/UTs on the basis of 2011 Census for 2019
2.	Women	Report of the Technical Group on Population Projections, Nov. 2019, National Commission on Population, MoHFW	Estimated population of States/UTs on the basis of 2011 Census for 2019
3.	Children	Ministry of Health & Family Welfare	Estimated on the basis of 2001 Census for 2014
4.	Senior Citizen	RGI	Actual Census 2011
5.	Scheduled Castes	RGI	Actual Census 2011
6.	Scheduled Tribes	RGI	Actual Census 2011
7.	Metro Cities	RGI	Actual Census 2011

(Details of population for States / UTs and Mega Cities are placed at Annexure – I.)

c) Crime Rate

In order to make the Statistical Analysis more meaningful, ‘Crime Rate’ has been calculated on the basis of per lakh population of the respective segment of the population viz. Women, Children & SC/ST etc. Crime Rate = Number of Cases Reported / Population in Lakhs

d) Terms used for registered FIRs

The terms in the report namely ‘Cases Registered’, ‘Cases Reported’, ‘Number of Cases’, ‘Number of Crimes’, ‘Number of incidences’, ‘Incidences’ are interchangeably used to indicate the number of registered FIRs.

CRIME STATISTICS - A WORD OF CAUTION!

Crime is manifestation of myriad complex factors. The causes of criminal behavior lie in the social processes and structures. People commit crimes due to the process of socialization that does not develop strong sense of right or wrong and due to the emerging opportunities, the enlarging desires that act as strong motivation for taking to crime to fulfill these desires. The genesis of crime can be traced to interplay of various social, economic, demographic, local and institutional factors. The presumption that crime occurs because of the failures of police therefore displays a complete lack of understanding of the theories of criminal behavior.

Further, these social factors along with other latent and concomitant factors vary significantly across different regions, states and societies. The differences in procedures over large geographical regions and styles of functioning inherent between organizations also create wide variances. Hence, doing comparison among States/districts/regions/social groups etc. on the basis of these published data alone will be too simplistic and is best avoided.

Further, no weightage has been assigned to the gravity or nature of the crime. All crimes have thus been treated equal in counting the total crime for a State or City. More crime registered say, in a city is, therefore, not an indicator of its being comparatively unsafe than the city where total crime may be less.

Lastly, as crime increases with population, Crime per lakh population (*Crime Rate*) may be a better indicator to assess increase or decrease in crime. However, a word of caution here! The primary presumption that the upward swing in police data indicates an increase in crime and thus a reflection of the ineffectiveness of the police is fallacious. 'Rise in crime' and 'increase in registration of crime by police' are clearly two different things, a fact which is often confused. Thus an oft-repeated expectation from certain quarters that an effective police administration will be able to keep the crime figures low is misplaced. Increase in crime numbers in a State police data may in fact be on account of certain citizen centric police initiatives, like launching of e-FIR facility or women Helpdesks, etc. The increase or decrease in crime numbers, however, does call for a professional investigation of underlying factors jointly with local communities to suitably address the issues involved.

Summary

(States & UTs)

Certain States like Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.

Chapter **1B**

Summary

(Metropolitan Cities)

(19 Cities with more than 2 Million Population)

Certain States like Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.
